Accor Signs Grand Mercure Mansar Resort in Maharashtra, Opening in 2028

Global hospitality group Accor has signed an agreement to develop Grand Mercure Mansar Resort in Maharashtra, marking the brand's entry into Mansar in the Vidarbha region. Located approximately 45 km from Nagpur, the 96-room resort is scheduled to open in 2028 and aims to strengthen the region's growing tourism and hospitality potential.

Spread across a 22.25-acre site, the resort will feature 96 rooms and suites, including 22 suites, along with an all-day dining restaurant, specialty restaurant, bar and lobby lounge. Guests will also have access to recreational and wellness facilities, including a swimming pool, spa and fitness centre. The property will offer approximately 600 sq. metres of event space for corporate meetings, social celebrations and destination weddings.

Strategically located near the archaeological site of Mansar, Ramtek Temple and Khindsi Lake, the resort is expected to cater to leisure travellers, heritage and pilgrimage tourism, as well as corporate guests. Its proximity to Nagpur's expanding business ecosystem, including MIHAN, further presents opportunities for meetings, incentives, conferences and exhibitions (MICE).

Developed in partnership with Abha Hospitality Pvt. Ltd., the resort will follow Grand Mercure's brand philosophy, "Discover Local Grandly", celebrating the region's cultural heritage, local traditions and natural surroundings while delivering international premium hospitality standards. The development is also expected to support regional tourism, generate local employment opportunities and position Mansar as an emerging destination for leisure getaways, weddings and corporate gatherings.
