

Lords Hotels and Resorts launches upgraded Website

Lords Hotels & Resorts has recently upgraded the design of their website, the new design features innovative booking engine, also It provides an improved user experience. The new website is powered by Internet Moghuls, an award winning hotel digital marketing agency for the hospitality industry.

This website boasts of features like click-to-call which allows user to easily get in touch with Central Reservations. It also provides a convenient and secure way to pay through Debit and Credit Cards. Guest can read reviews of individual hotels while reserving rooms. A push notification service has also been included for new special offers. Chatbot will be integrated soon on the website. Once deployed it will facilitate guest to get on-demand and custom-tailored information instantly.
