

The Oberoi Group opens The Oberoi Rajgarh Palace in Khajuraho by restoring Rajgarh Palace

The Oberoi Group has announced the opening of The Oberoi Rajgarh Palace, Khajuraho — a meticulously restored 350-year-old palace set within a 76-acre estate featuring a natural lake. Built by Maharaja Hindu Pat of the Bundela Dynasty, the palace lies on the slopes of the Maniyagarh Hills, surrounded by Sal and Palash forests with sweeping views of the Vindhya ranges. Its strategic location offers guests close access to Panna National Park and the UNESCO World Heritage temples of Khajuraho.

A landmark restoration

Reflecting on the project, Arjun Oberoi, Executive Chairman, The Oberoi Group, said:

“The restoration of The Oberoi Rajgarh Palace has been an extraordinary journey of bringing history back to life. Our teams worked meticulously to preserve the architectural integrity of this remarkable Bundela monument while introducing contemporary comforts with sensitivity and respect. Every arch, courtyard and detail has been revived with the intention of honouring the palace’s heritage and creating a timeless experience for generations of travellers to come.”

Accommodation & Culinary Experiences

The property features 65 luxurious rooms and suites, including Palace Suites, private pool villas and terrace accommodations with panoramic views of the lake, hills and forests.

Dining experiences include:

- Maanya — an exclusive dinner venue serving royal culinary traditions
- Neerangan by the Lake — offering Indian and international cuisine in a stunning natural setting
- Amrava — a bar overlooking the palace courtyard

The estate also offers multiple private dining destinations for bespoke occasions.

Event facilities span nearly 1,000 square metres, suited for weddings, social gatherings and corporate retreats.

Strategy & Vision

Speaking about the launch, Vikram Oberoi, CEO, The Oberoi Group, stated:

“The Oberoi Rajgarh Palace reflects our long-term strategy of creating exceptional luxury destinations in locations of deep cultural and natural significance. Rajgarh presented us with a unique opportunity to safeguard a historic palace while redefining it for the discerning global traveller. Our focus has been to integrate heritage, sustainability and contemporary design into an experience that is immersive and relevant. With its remarkable setting, thoughtful restoration and curated guest journeys, Rajgarh strengthens our portfolio of distinctive destinations and underscores our commitment to growing with purpose and integrity. We are delighted to welcome guests from India and from across the world to discover this extraordinary addition to the Oberoi portfolio.”

Wellness & Curated Guest Journeys

The palace features a lakeside spa reached by boat, with tented treatment rooms overlooking the water and hills, along with two temperature-controlled pools. A selection of curated experiences includes temple walks, safaris and intimate historical explorations within the palace itself.

Mohit Nirula, Chief Operating Officer, The Oberoi Group, commented:

“The Oberoi Rajgarh Palace showcases our commitment to delivering experiences that are immersive, personalised and executed with uncompromising attention to detail. The integration of heritage, wilderness and contemporary luxury required exceptional coordination across design, operations and guest experience teams. I am immensely proud of the passion and precision with which our colleagues have brought this palace to life. I am confident our guests will experience Oberoi hospitality at its finest — authentic, heartfelt and deeply meaningful.”

Manav Mathur, General Manager, The Oberoi Rajgarh Palace, added:
“Bringing Rajgarh back to life has been both an honour and a responsibility. This palace carries centuries of stories, and our endeavour has been to preserve its soul while creating a luxury experience that feels warm, sincere and deeply connected to the region. Our team is dedicated to ensuring every guest feels the magic of Rajgarh — its landscapes, its history and its hospitality.”
