

## **Four Seasons Hotel Mumbai launches 10,000 sq ft ballroom**

Four Seasons Hotel Mumbai has unveiled a 10,000-square-foot pillarless ballroom at its Worli property, significantly expanding its events and banqueting capabilities in the city. Opened on January 29, 2026, the new venue is designed as a versatile space for weddings, corporate gatherings, and high-profile social celebrations.

At the heart of the development is a 5,700-square-foot main hall featuring soaring ceilings and integrated LED panelling, complemented by advanced audiovisual technology and fully adaptable lighting systems to accommodate diverse event formats. A 1,300-square-foot pre-function area, along with a dedicated entrance, ensures seamless guest flow and enhanced privacy. The ballroom also introduces a live kitchen concept, enabling immersive, on-site culinary experiences tailored to each event.

The design aesthetic blends deep blues, gold accents, and neutral tones, creating a contemporary yet elegant ambiance. Sustainability remains a key focus, with locally sourced menus and a zero-waste culinary philosophy integrated into event operations.

Commenting on the launch, Nitesh Gandhi, General Manager, Four Seasons Hotel Mumbai, said, “At Four Seasons, we believe celebrations should feel deeply personal yet effortlessly grand. This ballroom has been thoughtfully crafted to honour life’s most meaningful milestones—where every wedding vow, every toast, and every gathering is elevated through design, service, and heartfelt attention.”

The addition underscores continued investment in large-scale event infrastructure within Mumbai’s luxury hospitality landscape.
